Technology Committee Updates
April 2023

- Technology Committee modality update

- Google Spaces update

- Student Printing Solution

- Decommissioning of the web archive

Technology Committee Modality Update

According to AP 2.07 any committee under PGC isn't subject to the Brown Act and may continue to meet virtually

In March Technology Committee meeting the members unanimously voted to continue meetings via zoom

Google Spaces update

- Google allocation reduced from 162TB to 135TB, inline with enrollment trend (27 TB reduction)

- Currently used storage 104TB

- Working on outreach to 150 students who use over 100TB of storage to bring usage inline with 1 TB per account allocation

Student Printing Solution

https://www.ccsf.edu/about-ccsf/administration/finance-and-administration/information-technology-services/student-printing

Coming soon – enterprise-wide "PaperCut Mobility Print" system with benefits of:

- same cost throughout the college
- same consistent interface
- print from your own laptop
- use any lab computer to print
- print to the closest printer
- use electronic payment methods

Decommissioning of web archive

- Current archive is not ADA compliant

- Content management soft freeze 7/31/2020

- Migration training recordings distributed on 08/11/2020 (Share Point, the Vision Resource Center (VRC) and Board Docs)

- Content management turned off 12/24/2020

- Technology Committee topic since November 2022, 234 content editors identified

- Decommissioning most recent communication dates:
  - 02/08/2023
  - 04/14/2023

- Decommissioning date – 06/30/2023

Technology Committee Updates
