Dear Ms. Rodriguez-Vivas,

We thank you for considering CWDL, Certified Public Accountants ("CWDL") as your independent auditors. We are pleased to respond to the City College of San Francisco (the "District") for **Audit Services**, for the fiscal years ending June 30, 2024 through 2026 and the optional fiscal years ending June 30, 2027 through 2028. We acknowledge receipt of Addendum No. 01 pertaining to the prior RFP 2024-050.

CWDL is a regional CPA firm. CWDL currently **audits over 30% of the Community College Districts in California**. The Partners at CWDL have managed the audits of **over 30 Community College Districts, 30 Proposition 39 bond audits, 45-auxiliaries and non-profits and 50 school districts** throughout the States of California and Arizona.

We offer the District our expertise in California community college district audits. From staff to partner, your engagement fieldwork team leads will consist entirely of **licensed Certified Public Accountants (CPAs)**, two of whom also hold a **Certified Fraud Examiner (CFE)** credential. The quality of our fieldwork teams – the individuals that you and your staff will see and work with – is a key aspect of an overall audit approach that sets CWDL apart.

While many firms offer partner involvement, we go above and beyond with our commitment to having a **partner either physically on-site or remotely engaged for 100% of fieldwork**. When our staff are conducting any phase of the audit, you can be sure they will be joined by a partner. In addition, our entire team consists of licensed CPAs who are all experienced in local education agency audits. We believe the combination of our team's experience and our client-focused approach enables us to provide a service unmatched by other firms. We also encourage you to contact our references.

CWDL takes a great deal of pride in our All-Inclusive Annual Fee. This fee encompasses a variety of situations that trigger supplemental billings at many of our competitors. Items such as the following will not cause an additional fee:

- Implementation Support for New GASB Pronouncements
- Additional Fieldwork Visits & Scheduling Changes
- Focused Staff Trainings
- Additional Meetings and Presentations

Inclusion of these items in an all-inclusive fee is not industry standard and we encourage you to contact our references and hear directly from your peers as to how they have benefited from the additional level of flexibility and support that our firm provides.

We have read and understood all the requirements listed in the Request for Qualification for Audit Services. This statement certifies our willingness to perform the services as noted in the RFQ and indicates that we have completed and duly submitted all forms, certificates, and compliance requirements.

Should CWDL's proposal be accepted, CWDL agrees to enter into a contract under the terms and conditions as set forth in the RFQ.

CWDL is committed to meeting all reporting and time requirements as noted in the RFQ. Our goal is to properly plan the audit to ensure that the District is provided with the proper personnel, hours and resources needed to ensure that all deliverables are provided within the required timelines. We offer our commitment to provide audit report drafts within two (2) weeks of our year-end audit visit. We encourage you to contact our references to discuss our ability to meet required timelines. We will also provide you with direct contact numbers to our partners should any questions arise.

CWDL certifies the sufficient availability of staff, office locations, hours and all other required resources for performing all services and providing all deliverables within the specified time frames as described in the Request for Qualifications.

As noted in this RFQ the senior staff assigned are all properly licensed Certified Public Accounts and in good standing with their respective Boards of Accountancy. Furthermore, all team members have a minimum of three years of experience performing audits of School Districts similar to the City College of San Francisco. See below for a list of staff and associated license numbers. You can confirm this via the license lookup at the California/Arizona Boards of Accountancy websites (www.dca.ca.gov and www.azaccountancy.gov).

Dennis V. Maschke, MBA, CPA	15778	Principal	Concur/Review Partner

John Dominguez has been assigned as the audit engagement partner and is authorized to make representations and bind the bid contractually on behalf of CWDL. Ben Leavitt has been assigned as the secondary contact.

This proposal is a firm and irrevocable offer for sixty (60) days. We acknowledge that all documents submitted pursuant to this RFQ process will become a matter of public record. Should our proposal be accepted, we agree to enter into a contract under the terms and conditions set forth in RFP 2024-050R. After reading through our proposal, if you have any questions, please feel free to contact me at (619) 729-7069 or via email at jdominguez@cwdl.com. Our fax number is (858) 565-7399. Who we are – CWDL is a partnership that employs over 45 professional staff. We were incorporated on January 14, 2014 in the State of California. We are a national CPA firm, located in California, Arizona and Texas, offering audit, tax and consulting services. We have three partners who specialize in school district and higher education audits, which comprise 90% of our governmental audit practice. In addition to school districts and higher education audits, we conduct audits for charter schools, foundations, not-for-profits, and private businesses.

The work will be conducted from our San Diego office, located at 5151 Murphy Canyon Road, Ste. 135, San Diego, CA 92123. CWDL employs over 20 professional staff at this office, including five partners, two managers, four seniors, and ten staff.

For ten years, CWDL has focused its expertise in educational finance on the California Community College System. Starting with a single CCD at inception, we now provide high-quality professional auditing services to over 30% of the Community College Districts throughout the State. In this small, specialized world, reputation is everything and we encourage the District to contact our references to learn more about the level of service that we provide directly from your esteemed peers.

Range of Activities – The range of activities performed by our San Diego office include audit, tax and consulting services. We have two partners who specialize in California School District audits, which comprise the majority of our governmental audit practice. We are recognized throughout the State of California as an education and governmental auditing firm. In addition to California School District audits, we specialize in audits of Community College Districts, charter schools, foundations, not-for-profits, and private businesses. We also work with non-profit organizations in the area of tax, audit and accounting services. Our dedicated governmental team audits school district's year-round which means we are flexible in scheduling and are always responsive to client needs. Our educational audit partners provide direct cell phone numbers to all clients, and pride themselves on being available 24/7 for any client need.

Importance of Certifications – At CWDL we understand that the Certified Public Accountant ("CPA") designation is a valuable credential for advancing a career in accounting and auditing. It demonstrates a strong knowledge of accounting practice, in addition to knowledge of applicable laws and regulations. The designation of a CPA is widely respected as a gauge of quantitative skills and high standards of professionalism. All lead team members assigned to City College of San Francisco are licensed Certified Public Accountants.

Not just CPAs – In addition to being licensed CPAs, we have two Certified Fraud Examiners on staff who are governmental audit experts. Our CFEs regularly assist our audit clients with forensic services should the need arise. An expert who understands the operations of the City College of San Francisco and is also a CFE adds even more to the value that our firm brings to your organization.

Peer Review – CWDL is extremely proud to provide our peer review report. As members of the AICPA Private Practices Group we participate in the peer review process. The peer review process is conducted every three years. Included below under the appendix section is a copy of our current quality control report opinion issued in August 2023. We are proud to report that the opinion is **Pass**, the best opinion that a firm can receive. This opinion was issued over our governmental audit practice as well as our not-for-profit and for-profit audit engagements. We are extremely proud to say that all aspects of our quality control systems have received this opinion. There were no deficiencies noted in the extremely thorough review performed, nor were any identified during the California Board of Accountancy peer review board acceptance process.

Why Our Firm – Two major factors to performing a high-quality audit are: accountability and supervision. CWDL has developed a team and organizational chart that adhere to both. John Dominguez is the engagement partner on the audit and will supervise the in-field manager, senior and associate. In addition, to keep him accountable to high standards, the files will be reviewed by Dennis V Maschke to ensure a high-quality audit. Inevitably, during the audit process, questions arise. With a clear chain of command structure, it is easy for the audit associate and senior to understand where they should go with questions. If there are ever issues or findings, seniors and associates will go to their supervisors to ensure they are evaluating the information accurately. Quality is a core value at CWDL and providing a strong organizational team is one way we adhere to those values.

Another way we provide quality service is through our experienced teams. We understand the changing environments that School Districts face, and it is important that our engagement teams are properly trained and certified. The following shows the list of individuals on the engagement team and their CPA license number. It is important to us that each of our team members are properly certified so they can provide quality service and knowledge to each of our clients.

Auditor Transition – CWDL specializes school district audits and its partners manage the entire engagement. Because of this, and our focus on regular communication, the transition to a new audit firm will be smooth and effective. We encourage you to speak to our references, particularly those with which we have recently engaged to hear about the transition directly from their perspective.

To make this smooth and effective transition happen, we will provide you with: trained and supervised staff, a detailed audit plan at each phase of the audit, a detailed timeline, and regular communication on the audit status. We understand an audit can be a difficult time. It is time consuming to prepare all our audit requests while completing the daily tasks of a school district official. Our mission is to make the audit process as easy as possible. We have a philosophy of helping our clients, answering their questions and providing detailed request to make the process smoother.

Prior to joining CWDL, Dinora worked as a senior account manager for a large eCapital corporation. Ms. Gonzalez earned her Master of Business Administration from the California Baptist University.

CWDL certifies that all key personnel will be available to the extent we proposed, for the duration of the project in the manner prescribed, acknowledging that all of the personnel designation as 'key' to the project shall be removed or replaced without the prior written concurrence of the District.

STAFFING AND PROJECT ORGANIZATION, continued

CONTINUING EDUCATION

All members of the engagement team will meet or exceed the CPE requirements. CWDL uses a combination of in-house developed programs and external CPE to ensure all professional staff maintains the highest level of professional education. All professionals participate in formal CPE programs that meet or exceed the minimum mandatory standards of 120 hours of CPE over a three-year period.

CWDL's commitment to the government industry so we provide our professionals with specific, ongoing training related to these industry issues. This investment ensures our people stay current on the unique challenges and opportunities within their industries so they're in the best position to help clients address these issues. We accomplish our regulatory and accounting standard training through attendance at various AICPA sessions and attending the semi-annual California Association of School Business Officials (ACBO) workshops.

AUDIT APPROACH SUMMARY

Part of our planned approach includes assistance in the preparation of the financial statements in compliance with all requirements. The partners, managers and in-charges at CWDL are thoroughly knowledgeable about GASB 34 and 35 and the financial statement preparation. Our partners and managers have assisted all of their district audit clients, as part of the standard engagement (included in the all-inclusive fee) with:

- Compilation of the financial statements including the footnotes
- GASB 34 conversion entries
- GASB 68 Pensions and footnotes
- GASB 75 OPEB and footnotes
- GASB 87 Leases and footnotes
- GASB 96 Subscription-based information technology arrangements and footnotes
- Review and assistance with the capital asset schedules
- Review and assistance with the preparation of the Long-Term Debt schedules and conversion entries
- Preparation of the Management Discussion and Analysis based upon the final audited figures

CWDL is well versed in all GASB standards applicable to our clients. Each year we discuss new standards with our clients and help develop a roadmap for implementation.

To arrive at our opinion, we will employ a risk-based audit approach as required by professional auditing standards. For each engagement performed, we conduct a thorough review of internal control systems, assess control risk and suggest to our client's areas where improvements might be made. Based upon the results of our control examinations we tailor our substantive audit procedures to areas of higher complexity and risk. This approach enables us to keep audit risk at a minimum and ensure the highest level of quality audit service. We take this approach but go the extra mile to thoroughly understand the operations of the District and ensure that we are exceeding the expectations of the District.

WORK PLAN

AUDIT APPROACH SUMMARY

Part of our planned approach includes assistance in the preparation of the financial statements in compliance with all requirements. The partners, managers and in-charges at CWDL are thoroughly knowledgeable about GASB 34 and 35 and the financial statement preparation. Our partners and managers have assisted all of their district audit clients, as part of the standard engagement (included in the all-inclusive fee) with:

- Compilation of the financial statements including the footnotes
- GASB 34/35 conversion entries
- Review and assistance with the capital asset schedules
- Review and assistance with the preparation of the Long-Term Debt schedules and conversion entries
- Preparation of the Management Discussion and Analysis based upon the final audited figures

CWDL is well versed in all GASB standards applicable to our clients. Each year we discuss new standards with our clients and help develop a roadmap for implementation.

To arrive at our opinion, we will employ a risk-based audit approach as required by professional auditing standards. For each engagement performed, we conduct a thorough review of internal control systems, assess control risk and suggest to our client's areas where improvements might be made. Based upon the results of our control examinations we tailor our substantive audit procedures to areas of higher complexity and risk. This approach enables us to keep audit risk at a minimum and ensure the highest level of quality audit service. We take this approach but go the extra mile to thoroughly understand the operations of the District and ensure that we are exceeding the expectations of the District.

CWDL utilizes sampling methodology consistent with industry standards/best practices as prescribed by the AICPA audit and accounting guidance, Uniform Guidance, and generally accepted government auditing standards. On the compliance side of the audit this means that we are using statistically significant samples to ensure any findings or questioned costs can be extrapolated, as required by the State Chancellor's Office. For our substantive sampling, we follow the most up-to-date industry standard guidance to ensure a 95% confidence level. In addition to our sampling we utilize analytical procedures as an integral part of our planning, compliance, substantive, and final audit procedures.

CWDL recognizes that the audit practice of local education agencies relies heavily on the use of computerized software. Because we have extensive experience in these audits, all personnel assigned to the audit are familiar with the most common computerized systems. We have extensive experience with commonly used ERP systems and attendance software and are provided with direct auditor login at many clients. This enables us to complete detailed audit procedures with a minimal impact on your staff.

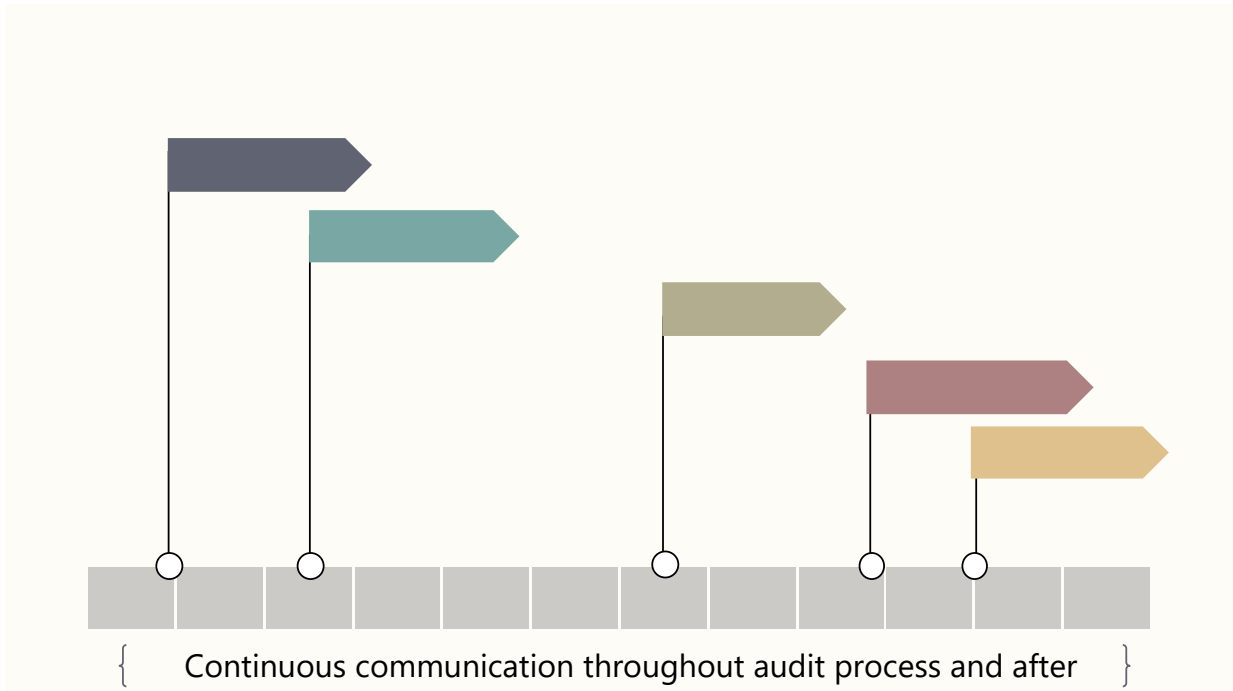

CWDL believes technology is an important component in providing services to our clients. We currently employ a paperless audit system that provides us with a powerful way to organize, prepare, review, and share audit work papers throughout the engagement. In addition, our software allows us to download data from the financial applications and generate financial statements at the time fieldwork is completed.

WORK PLAN, continued

CWDL’s knowledge and experience auditing California Community College Districts allows us to provide a work plan and timeline that will ensure a smooth completion of all audit testing in accordance with standards, along with the delivery of a quality report in a timely manner. Our workplan will allow us to provide the following:

- An opinions report on the financial statements
- A report on the study and evaluation and report on internal control systems
- A report on the organizations' control system to assure compliance and whether the organization has complied with laws and regulations that may have an effect on each major federal assistance program

Note that all estimated dates are subject to District approval. Listed below is a high-level timeline of the audit process followed by more detail on the purpose of each visit. All of these dates and the timeline is subject to management approval. We work hard to provide the best possible customer experience, and setting an effective timeline for management and governance is of the utmost importance.

Phase	Timing	Proposed Work	Percentage of Work Done
Pre-audit & Planning	March	Pre-audit conference and District planning.	10%
Interim Fieldwork	May	Site testing, test of controls, expenditure and bid procedures testing, state compliance, federal compliance.	45%
Year-end Fieldwork	September	Balance sheet, revenues and expenditure testing and completion of state/federal compliance.	40%
Audit Completion	November	Reports drafted and provided to management for review. Upon approval, reports submitted to all agencies and presented to District Board.	5%

WORK PLAN, continued

Pre-audit & Planning Phase

CWDL will meet with the District's key staff at this phase of the audit. We will begin planning the audit services for interim and year-end. We will schedule meetings to discuss significant items and the proposed audit plan. During this phase, we plan to:

- Establish an understanding of services to be performed.
- Identify key personnel and contacts.
- Conduct interviews with management and other key personnel regarding fraud and gain an understanding for the entity's procedures for identifying and preventing fraud
- Perform our risk assessment documentation and determine scope of work.
- Perform our preliminary analytical procedures.
- Propose testing for interim fieldwork as well as establish interim dates.
- Plan and determine the involvement of the entities staff.
- Finalize timeframes related to fieldwork and exit meetings.

At this phase of the audit, we will provide management with a listing of items requested that we will need for the interim phase of the audit. Having this information provided prior to the beginning of interim will help increase the efficiency and timing of audit fieldwork.

Interim Fieldwork Phase

The scheduling of interim fieldwork will be based on the District's agreed upon time. This phase makes up approximately 45% of the total audit and is when we begin our site-testing. During site testing, we will plan the following District work:

- Site testing over attendance reporting
- Gain an understanding of the entities' controls over the financial reporting process.
- Identify key controls over significant processes such as cash disbursements, cash receipts, payroll, budgeting and information systems.
- Testing of key internal controls identified.
- Perform testing over Federal and State Compliance Programs

At the end of this phase, we will provide management with a management letter that outlines a summary of all findings and recommendations that were noted as a result of our interim testing. We will also plan to schedule year-end fieldwork at this time.

WORK PLAN, continued

Year-end Fieldwork Phase

We will begin our year-end fieldwork once the entity has closed their accounting records and provided the DAT file. This phase will take place during September or October as agreed upon by the District. During this phase, we plan to:

- Perform substantive procedures over the year-end balance sheet, revenues and expenses. This includes using our risk-based approach to design procedures and test details of account balances and transactions as well as analytical procedures.
- Complete any open State and Federal compliance areas that require audit work as of the end of the fiscal year.
- Evaluate and review the quality and sufficiency of audit evidence by Managers and Partners.

This phase of the audit will complete our substantive testing. We will provide management with a management letter outlining a summary of findings and recommendations, including all findings and recommendations noted during interim.

Audit Completion Phase

During this phase of the audit, we will begin preparing the audit report and management letter to present to the District for review. Once the audit report and management letter is approved, we will begin to finalize our audit by doing the following:

- Complete the final analytical procedures.
- Issue the financial audit opinion and opinions over State and Federal compliance.

As noted on your Request for Proposal, we will provide the District with completed financial statement drafts no later than two weeks after the completion of year end fieldwork with the final audit report submitted to the District not later than December 15 or as specified by the District. We will deliver the reports to all appropriate entities as specified by the State Controller's Office and the District.

In addition to the above, we will present the audit reports to the District's Board and audit committee on the dates requested by management.

Our Team conducts a budget review at every phase of the audit to ensure that all work performed aligns with the charge hours of every personnel assigned to this project. For the schedule, rest assured that everyone on the team is keen as to the specific tasks assigned to them.
